- Optional Three Part Booms Available
- 6,000lbs to 18,000lbs Load Capacity Closed
- 3,000lbs to 14,000lbs Load Capacity Extended
- Wide Variety of Coupler Mounts Available

Rylind Jib Booms are designed to match the specifications and weight lifting characteristics of the class of loader being used. They are available in a standard two piece 8' to 12' extendable or an optional 8' to 15' extendable three piece unit. Jib Booms are great tools to quickly load or unload materials eliminating the need for multiple machines. Various types of quick coupler systems including Rylind Wedge-loc, Pin-loc systems or pin-on mountings are available.
