

FEATURES

- 15"-17" of Additional Height & Reach
- 2-3 Yard Loaders Only
- Light Material Operation 1,800# per Sq/Yd or Less
- Easily Removable
- Ideal for Charging Grinders and Feed Trucks

Rylind Loader Arm Extensions are designed for light material operations, moving material weighing 1,800# per sq/yd or less. Designed for use with specific 2-3 yard loaders only. Completely bolt-on and removable to go back to heavier applications or snow removal, leaving only two brackets on the machine when removed. Use of loader arm extensions with a coupler system is not recommended due to the extended reach and change in the center of gravity on the machine. Full counter weight is recommended.
